**Promoting the Success of a High-Standard Trade in Services Agreement (TiSA)**

We, the undersigned companies, welcome the launch of Team TiSA, a coalition of U.S. businesses and associations committed to advocating for a high-standard Trade in Services Agreement (TiSA). The co-chairs look forward to engaging with businesses, U.S. and foreign governments, and the public to support negotiation of this important initiative.

TiSA holds the potential to create a more competitive, open environment for services trade and investment by eliminating market barriers. A robust agreement will benefit services companies, and the manufacturers, farmers, and consumers who rely on those services, generating economic and job growth in the United States and globally.

Co-Chairs of Team TiSA
